

WORLD AIDS CAMPAIGN  
2001

*I care...  
do you?*

"We all want a healthy family.  
Men, take care of yourselves,  
your partner and children.  
Together, we can overcome  
HIV/AIDS."

Joarita Kawalyo, Singer

"Don't blame or despair. Look  
at yourself as the channel that  
will save the rest... Speak out  
Open up! Even with its inherent  
impact, HIV/AIDS doesn't need  
to deter anyone from living a  
fully meaningful life."

Lilian Mwaziki,  
Person living with HIV

"During the many years  
I have been in the army, I have  
not seen or heard of a battle  
which has indiscriminately  
claimed casualties like  
HIV/AIDS. We need to join  
hands in this fight, those who  
are strong should help the  
weak. Victory is certain!"
